Designed for his award-winning Oyster House, Nigel Coates' 'Oxo' seating system is based on two complementary forms that can be used together to create dynamic and flexible arrangements, or as individual seats. A chaise longue, small pouffe and side table complete the range. Available in a wide range of fabrics and leathers, backs and seats can also be upholstered in contrasting fabrics. Frames are of beech and preformed ply with elastic webbed seats, upholstered in graded CMHR foams with a dacron wrap. Seat height 410mm
