

## hm59 Wing

Demacker's dynamic hm59 Wing lounge chair provides superb comfort through the natural flexing of its preformed plywood shell. Available in both low- and high-back versions, with or without armrests, the chair has the option of either a steel skid base in polished chrome or powder coated white or black as well as an aluminium swivel with a polished finish, or powder coated white or black.

The collection can be upholstered in a wide choice of fabrics and selected hides and multi-tone upholstery is available - front and back can be specified in different fabrics.

For more information, [click here](#).

Born in Germany in 1970, Matthias Demacker studied design at Niederrhein Polytechnic at Krefeld. After graduating, he moved to Munich where he gained experience in a number of design consultancies and interior design studios before setting up his own practice. He has received many international accolades including the Interior Innovation Award and the Red Dot Design Award, and is working on furniture and product designs for clients across Europe. The hm58 and hm59 collections were developed with Hitch Mylius in 2009.
